HEAVY PURCHASES OF STOCK.

Conference of Western Executives -Minneapolis and St. Louis Control-Southwestern Bureau-Appointments.

REPUBLIC SPECIAL. New York, Jan. 3 .- The general opinion in Wall street and among railroad men is that James J. Hill and some of his friends have bought a large interest in the Chicago, Milwaukee and St. Paul Railroad and that Mr. Hill will go into the Board of Directors very scen. No regular meeting of the board is to be held this month, but persons friendly to Mr. Hill intimate that a special meeting of the board may be called within a few weeks.

Chairman Roswell P. Miller of the St. Paul directorate says that the present members of the board have no information of any prospective changes in the affairs of the company. He knows nothing of the alleged acquisition of stock by President Hill of the Great Northern. The story was revived this morning with much positiveness that the St. Paul roud would be leased to the Great Northern and the Northern Pacific companies on the basis of a guarantee of a 7 per cent dividend on the common stock. J. Pierpont Morgan, who is influential in

the management of the Chicago, Milwaukee and St. Paul Rallroad, was asked to-day whether there was any truth in the rumor that St. Paul was to be leased to the Great Northern and the Northern Pacific com-panies. He replied: "There is nothing for

ms to say on that subject."

Wall street men who do not credit the wall street men who do not creat the statement that there is to be a change in the St. Paul management regard with favor the report that the St. Paul common stock dividend is to be increased to 7 per cen and that a distribution of the accrued surplus in the form of a stock dividend is to be made.

LET THE WEAK LINES FALL. President Jeffery Makes Some Emphatic Remarks on Consolidation.

Denver, Colo., Jan. 2.—President E. T. Jeffery of the Denver and Rio Grande Road, who is chairman of the Executive Officers' Association, meeting four times cach year in New York, says there is not a particle of truth in the reported gigantic rallway combine which is to control all the great lines. In an interview he said:

"Nobody in his same mind ever thought of attempting to combine all the railways into a great organization to control the commerce of the country. The meetings in New York have no such burpose, and if railway managers can be brought to a point where they will simply obey the interstate commerce law, the main object of the meetings in New York will be accomplished. If the lines will quit rate-cutting and simply obey the plain letter of the law, that is all I would ask, and it is quite enough for one organization to accomplish. I have always been a stickler for obedience to the law, Let the railway managers carry out the plain provisions of the interstate commerce act, let them treat all shippers allice, and rake changes in rates only after giving public notice as required by law. If this is done there will be no need of combinations to try to control the traffic."

"What would become of the weak lines if the law were obeyed?" he was naked.

"They would go out of existence," was the reply. "That is the natural law, and I see should be forever upheld by those that are able to take care of themselves. Let the weak lines be absorbed by their more vigorous competitors, or let them go out of existence altogether. In either event the public is the painer, and the business interest is better off."
